

Ireland and Zambia- Making a Difference Together Work Sheet Two

- Remember Irish Aid's Four Priorities: **gender equality, reducing humanitarian need, climate action and strengthening governance?** (There are definitions below if you forget!)
- **In Pairs/Groups:** Discuss the examples that you saw on the video of the work that Irish Aid does with partner organizations in Zambia. **On the chart on the back, fill in as many of these examples as you can, under the four headings.**
- **Compare your findings** with the whole class. How successful is the Irish Aid programme in Zambia?

Gender Equality means that access to rights or opportunities should be unaffected by gender. The empowerment of women and girls in all areas of life is very important.

Reducing humanitarian need means anticipating and responding to crises such as natural disasters, conflict and food shortages, to protect the most vulnerable and those most at risk.

Climate action means acting to combat climate change and helping vulnerable people to adapt to climate change.

Strengthening governance means strengthening the way that organizations or countries are managed. Helping to build legal systems and protecting human rights are an important element of this.
